

We hope you love your vehicle's new finish! RestorFX is a permanent restoration process. This means it will never peel, flake or delaminate. Just like a new vehicle, though, it is susceptible to normal wear and tear, but there are some things you can do to further protect and preserve your new finish. RestorFX will be fully cured only after 15 days from application. As such, there are some important things to remember during this time to make sure your finish stays pristine. While the RestorFX treatment does take 15 days to fully cure, it is safe to take delivery before then.

Although RestorFX is still curing, you'll be happy to know that we've applied our advanced, breathable paint sealant **FX Finish Coat** on your finish for added protection while still curing. FX Finish Coat is also great for ongoing maintenance. The best way to maintain your RestorFX finish is to have FX Finish Coat applied every 3-5 months. Ask your local RestorFX Center about what programs and services are offered.

Please take time to read through these guidelines that we recommend you follow.

DAY OF PICK-UP

At the time of pick-up, your vehicle is ready to be driven and can withstand exposure to the elements - be it sun, rain or snow. However, it is best to be gentle, and if possible, to avoid physical contact with the RestorFX treatment for the next 24 hours, as it is still in the curing process.

DAY 1-7

DO NOT wash or introduce any chemicals to the surface of your vehicle, as contaminants and/or chemical products may interrupt or damage the RestorFX treatment and its curing process.

DAY 8-15

At this time, you may wash and wax your vehicle. We recommend a touchless wash system or professional hand wash with mild soap and water. Be mindful that just like a brand-new vehicle, RestorFX is susceptible to new damage, and contaminants such as dirt or dust may scratch the surface if not dealt with correctly.

AFTER FULL CURE

By now, the RestorFX treatment will be fully chemical-resistant and will display extremely hard surface characteristics. It is at this time that the product may be treated just as you would any standard manufacturer paint finish. If any of the panels on the vehicle need to be repainted at a later time, there will be no need to remove RestorFX - it is completely body shop-compliant.

IMPORTANT: It is imperative to follow these steps. Not doing so could result in your RestorFX application not fully curing and damage your vehicle's paint finish.

TIPS ON KEEPING YOUR RESTORFX TREATMENT IN PRISTINE CONDITION:

- ▶ We always recommend not using an automated car wash system, as the use of such a system will result in permanent surface damage. However, an automatic touchless system is a great alternative to use.
- ▶ The result of getting a RestorFX service is like buying a new vehicle, where taking preventive measures is the best way to keep it looking new. Using our FX Finish Coat, **ClearFX**® protection system or any of the products in the RestorFX **NUMBERS**™ line is an excellent way to maintain your surface for years and years. These preventive/maintenance applications add to scratch resistance, help prevent hard water etching and help keep harmful ultraviolet (UV) rays from affecting your car's shine.

The RestorFX Automotive Refinishing System is designed to restore your vehicle's paint finish back to a showroom-quality shine.

The longevity of your RestorFX finish is based on how well you maintain your vehicle. Standard car care is required to maintain your RestorFX finish, and normal wear and tear (like scratching) is still expected to occur.

To extend the life of your RestorFX finish, wash your vehicle only by hand and avoid using abrasive fabrics or sponges that might cause swirling or other damage to the surface of your vehicle. Proper aftercare procedures must be followed to ensure full cure of the RestorFX application after delivery. Ask for an aftercare sheet from your RestorFX® coating provider.

By using the RestorFX Automotive Refinishing System, you agree to the following Guarantee:

1. RestorFX Guarantee

1.1. Product Guarantee

RestorFX International (RestorFX Int'l.) guarantees the quality of the products used in the RestorFX Automotive Refinishing System. RestorFX Int'l. guarantees that the product is free from manufacturer defects and that it will not, when applied correctly to a properly-prepared automotive substrate, peel, flake, delaminate or crack for as long as one owns their vehicle.

1.2. Service Guarantee

RestorFX Int'l. requires that all licensees and certified technicians applying the RestorFX Automotive Refinishing System guarantee the quality of their services to you. The licensee will properly prepare vehicles for application using all of the RestorFX preparation products. The licensee will properly apply RestorFX in accordance with the official training guidelines and educate you on the curing times and aftercare instructions. The licensee guarantees that the RestorFX service performed on your vehicle will not fail due to improper preparation and/or application; and that the product will not peel, flake, delaminate or crack for as long as one owns their vehicle.

2. Guarantee Limitations

2.1. Only Applies to Current Owner

This guarantee only applies to you. If you transfer ownership of the vehicle, this guarantee will become void.

2.2. Only Applies if You Used a Certified Technician

This guarantee is void if you did not use a RestorFX certified technician.

2.3. Compromised Panels

This guarantee does not extend to compromised panels.

2.3.1. Repainted Panels

Although the RestorFX Automotive Refinishing System can be applied on almost any repainted panel, the consistency between panels may not be perfect depending on how the panel was repainted. For an absolutely perfect repair, the panel may be required to be repainted.

2.3.2. Damaged Panels

Although the RestorFX Automotive Refinishing System can be applied on almost any damaged panel, certain damages – like dents, unusually deep scratches, clear coat peeling, paint chipping – may not be repairable.

2.4. No Guarantee Against New Damage

RestorFX Int'l. guarantees the product will permanently restore past damage contained within the automotive clear coat, but it does not guarantee against new damage that may be inflicted upon the vehicle in the future. The customer should expect potential new damage to the RestorFX finish with regular wear and tear that accumulates from future use of the vehicle.

2.5. Lack of Standard Care

This guarantee is void if you do not exercise standard care of your vehicle. If you apply another coating, solvent or solution other than soap and water on top of the RestorFX automotive finish, this guarantee is void.

2.6. Registration of Service

The Certified Technician must register your service using a unique service guarantee identification (ID) at point of purchase by going to register.restorfx.com and following the steps necessary for registration. The RestorFX Int'l. guarantee is valid only if registered.

3. No Other Guarantees

This guarantee is the buyer's (Buyer) sole and exclusive remedy and is in lieu of all other guarantees, express or implied. Buyer disclaims all other guarantees including, but not limited to, any implied guarantee of merchantability or fitness for a particular

purpose. RestorFX will not be liable for any special, indirect, incidental or consequential damages or losses, including loss of life, arising from any cause in use of the product.

4. Repair is Sole Remedy

If there is a defect with the product or the application, you agree that your sole remedy is for a RestorFX certified technician to repair your vehicle to a condition as good as it would have been if not for the defect in the product or application.

Except where prohibited by law, you agree that RestorFX Int'l. and the installer of the RestorFX Automotive Refinishing System product will not be liable for any loss or damage arising from the RestorFX® Automotive Refinishing System coating product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including guarantee, contract, negligence or strict liability.

5. Contact

You can contact your certified technician directly or you can contact RestorFX International Customer Support at support@restorfx.com.

6. Severability

This guarantee will be enforced to the fullest extent permitted by applicable law. If for any reason any provision of this guarantee is held to be invalid or unenforceable to any extent, then (a) the provision will be interpreted, construed or reformed to the extent reasonably required to render the provision valid, enforceable and consistent with the original intent underlying such provision; (b) the provision will remain in effect to the extent that it is not invalid or unenforceable; and (c) the invalidity or unenforceability of the provision will not affect any other portion of this guarantee. ●
